ENLENS WORKSHOP ON WRITING AN INTERDISCIPLINARY RESEARCH PROPOSAL

ENLENS

OCT 2 · 2023

READ IN APP ↗

ENLENS is committed to connecting researchers from various faculties to enable them to combine their expertise, and to stimulate the development of joint research proposals aimed at accelerating the energy transition.

We invite interested parties for a one-day, hands-on Workshop Writing an Interdisciplinary Research Proposal, to help bring initial ideas a step further. The Workshop is meant both for researchers who have already joined their forces and for those who have an idea how to contribute but haven't found relevant partners yet.

Set-up of the ENLENS Workshop:

- *Explanation of what interdisciplinary research entails and how it can be attained.*
- *Introductory round where participants indicate their expertise and what and how they think they can contribute to an interdisciplinary research project.*
- *Sharing inspiring examples of inter- and transdisciplinary research projects related to the energy transition.*
- *Teaming up to work on relevant potential research question(s).*
- *Working on formulating a preliminary research question(s).*

Lunch Break

- *Presentation of preliminary research question(s) and gaining feedback.*
- *Exercise to jointly discuss appropriate interdisciplinary theoretical frameworks and/or methodological designs.*

Concluding remarks and closure.

You can express your interest for the ENLENS Workshop by filling in your name and indicating your availability for the proposed dates:

Pre-Registration

For additional information, kindly reach out to us at **enlens-science@uva.nl**

Future of Energy Seminar

The next Future of Energy (FoE) Seminar is scheduled for Monday, 16 October 2023, from 12:00 to 14:00 (including a light lunch), at the Institute for Advanced Study (IAS - UvA) – for on-site attendees only.

Presentations:

Title: “Energy transition, climate change and international relations”

by Ruud van Dijk

Title: “Avoiding sustainability tradeoffs in the energy transition”

by Elisabeth Krueger

To participate, **please RSVP by 12 October** by clicking on the button below:

ENLENS CALL FOR PROJECT PROPOSALS 2023

The new research priority area 'Energy transition through the lens of Sustainable Development Goals' (ENLENS) announces the call for project proposals. ENLENS unites researchers working on economic, environmental, technological, social, political, and business aspects of the energy system, the energy transition, and Sustainable Development Goals.

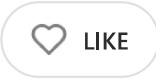

Through this call, ENLENS will provide seed money for cross-faculty initiatives to generate new opportunities for researchers to apply their expertise in an interdisciplinary approach, and develop joint proposals for external research funding. For more information, access the ENLENS website in the button below:
