# ENLENS HAS APPROVED TWO NEW PROJECTS

ENLENS

NOV 3 · 2023

In October 2023, ENLENS approved two new projects, thereby stimulating interdisciplinary cross-faculty research. The first project, entitled "Optimizing Energy Efficiency and Policy for Green Hydrogen Production and Market Adoption," focuses on the exploration of improving energy efficiency in green hydrogen production using paired electrolysis. This project also encompasses discussions about its commercialization and market adoption potential. The project will be coordinated by Amanda Amanda C. Garcia (HIMS) and Panikos Georgallis (EB).

The second project, entitled "Climate finance and energy minerals: A systems approach", adopts a systems approach to study how the politics of implementation affect responsible energy mineral production and access to

modern energy services in Sub-Saharan Africa, emphasizing clean energy. The project will be developed by Ruth D. Carlitz (FMG) and Michelle Westermann-Behaylo (EB).

These two projects analyze opportunities for joint progress on SDG 1 (No Poverty), SDG 7 (Affordable and clean energy), SDG 12 (Responsible consumption and production), SDG 13 (Climate Action), SDG 15 (Life on land), and SDG 17 (Partnership for the goals). They demonstrate the University of Amsterdam's unique expertise in researching the energy transition and Sustainable Development Goals from an interdisciplinary perspective.

## **ENLENS WORKSHOP ON WRITING AN INTERDISCIPLINARY RESEARCH PROPOSAL**

The first ENLENS Workshop will be held on December 7<sup>th</sup> from 09:00 to 16:00, at the IAS/UvA. We invite interested parties for a one-day, hands-on Workshop Writing an interdisciplinary Research Proposal, to help bring initial ideas a step further. The Workshop is meant both for researchers who have already joined their forces and for those who have an idea of how to contribute but haven't found relevant partners yet.

You can do your registration for the ENLENS Workshop by clicking on the button below:

Registration

For additional information, kindly reach out to us at [\*\*enlens-science@uva.nl\*\*](mailto:enlens-science@uva.nl)

## **FUTURE OF ENERGY SEMINAR**

The next Future of Energy (FoE) Seminar is scheduled for Monday, 13 November 2023, from 12:00 to 14:00 (including a light lunch), at the Institute for Advanced Study (IAS - UvA) – for on-site attendees only.

Presentations:

**The energy transition and environmental emissions”**

by Annemarie van Wezel

**Title: “Realising human rights in the global energy transition”**

by Margaretha Wewerinke-Singh

To participate, **please RSVP by 9 November** by clicking on the button below:

## **SOCIETY FOR LATIN AMERICAN STUDIES (SLAS) - Conference call for paper, panel & roundtable proposals**

On 1-3 July 2024 the annual Society for Latin American Studies (SLAS) Conference will be hosted by the Centre for Latin American Research and Documentation (CEDLA) at the University of Amsterdam. CEDLA is delighted to invite proposals for the SLAS conference. The deadline is Wednesday 15 November 2023. Please find information regarding the conference theme, tracks, and submission guidelines in the button below.

## **ENLENS CALL FOR PROJECT PROPOSALS 2023**

The new research priority area 'Energy transition through the lens of Sustainable Development Goals' (ENLENS) announces its fourth call for project proposals. ENLENS unites researchers working on economic, environmental, technological, social, political, and business aspects of the energy system, the energy transition, and Sustainable Development Goals. Through this call, ENLENS will provide seed money for cross-faculty initiatives to generate new opportunities for researchers to apply their expertise in an

interdisciplinary approach, and develop joint proposals for external research funding. For more information, access the ENLENS website in the button below:
